Canadian Blood Services  
*it's in you to give*

## You have the power to Give Life...

- This year, 100,000 new blood donors will be needed to meet patient needs. That's more than 1,900 new donors every week! Join the movement to Give Life and bring a friend!
- Less than 4% of eligible Canadians give blood yet half of Canadians have either needed blood or know someone who has. There are hundreds of patients waiting for a stem cell transplant. If you are between 17 and 35, you can Give Life by donating stem cells so please register today.
- Over 80 diseases or disorders may be treated by a stem cell transplant. Register to donate stem cells or plan to donate cord blood.
- Organ donation can save up to 8 lives and tissues up to 75 lives. Join the movement and commit to donate organs, eyes and tissues.
- What if you found out you had a great power? Like the power to Give Life? That's what you're doing when you donate blood. The power has been inside you all along.

### How do I Register as a Kin Member?

Visit [www.blood.ca](http://www.blood.ca) and...

1. Use their survey to make sure you are eligible to give blood
2. Sign up online [here](#) with your partner for life ID (found at [www.kincanada.ca](http://www.kincanada.ca))
3. Search the permanent clinics for one near you
4. Book a group donation and take a road trip with your club!

### Join the movement...

Book your appointment to give life now by downloading the **GiveBlood App** or visit **blood.ca**.

Register for stem cell donation today at **blood.ca/stem-cells** or find out about cord blood donation at **blood.ca/cordblood**

Plan to donate your organs, eyes and tissue at **blood.ca/organs-tissues**.
